PROFESSIONAL SUMMARY

PMP-certified Project Management and Digital Transformation Consultant with 3+ years of experience delivering cloud-based ERP and MES programs across 40+ manufacturing and retail sites in India, Vietnam, and Bangladesh. Proven track record in PMO governance, RAID management, and stakeholder alignment across all organisational levels. Led delivery teams and expanded client accounts, driving outcomes including 97-100% supply chain traceability and 75-85% reduction in manual reporting.

PROFESSIONAL EXPERIENCE

Solution Consultant, ERP & MES Transformation | Solvei8

2022 - 2024 | India, Vietnam, Bangladesh

- Led delivery across 28+ manufacturing and retail sites for 15+ clients, managing full project lifecycle from scoping through UAT, go-live, and post-implementation stabilisation.
- Managed PMO governance including milestone tracking, RAID logs, dependency coordination, and executive reporting across parallel workstreams.
- Managed stakeholder engagement from C-suite and factory directors through end users; led steering committee meetings, sprint reviews, and leadership reporting.
- Mentored and managed 4 junior implementation engineers across concurrent programs.
- Expanded 6-7 client accounts through upselling, adding 20-25 modules driving deeper platform adoption post go-live.

Implementation Engineer | Zilingo

2021 - 2022 | India

- Delivered ERP and MES implementations across 12+ manufacturing sites covering requirements gathering, system configuration, UAT, go-live, and post-deployment support.
- Enabled 100% digital operational coverage, reducing manual reporting by 75-85% through real-time production visibility systems.
- Delivered 97-100% supply chain traceability across client sites, improving audit readiness and operational transparency.

KEY PROJECTS

ERP & MES Implementation | Apparel Manufacturing Transformation

Multi-client deployments across South and Southeast Asia

- Implemented Solvei8 Factory OS and ERP across 40+ factory sites covering production tracking, quality monitoring, and supply chain visibility.
- Achieved 97-100% supply chain traceability and 75-85% reduction in manual reporting across all deployments.

Pre-Sales & Solution Consulting | Manufacturing SaaS

Discovery, scoping, and proposals across India, Vietnam, and Bangladesh

- Led requirements workshops for 22+ clients, translating operational needs into scalable system solutions.
- Expanded 6-7 accounts through upselling, adding 20-25 modules driving deeper platform adoption.
